Prepared for Sam Patel, Northside Physio • https://physio.example.com
Reviewed Thu, October 2, 2026 • Checked: 4 pages, 1 booking page, 3 hand checks

PLAN	MONTHLY PLAN PRICE	BILLING PERIOD	INCLUDED TIME
Business Care	$129	October 1 to November 1, 2026	30 minutes, flexible

PLAN TIME USED	AVAILABLE
5 standard minutes	25 minutes as of October 2

Plan time is counted in standard minutes from an agreed task schedule, including testing, not with a stopwatch. Monthly checks, this report, and covered defect fixes don't use it, and unused time doesn't roll over.

YOUR NEXT STEP
Approval needed for the team section rebuild (estimate below). Nothing starts until you approve.

One issue needs your approval: the team page doesn't fit phone screens. I couldn't verify booking this month: the automated check was blocked, and the booking service was unavailable during my manual review. I'll recheck next week.

What's wrong: These pages are wider than the screen, so they scroll sideways.
Why it matters: Parts of the page can be cut off, especially on phones.
Where: Team (mobile)
Next: Needs your approval: the team section rebuild (estimate below)

WAITING FOR YOUR APPROVAL

Team section rebuild

Scope: Rebuild the team section so photos and names resize to fit phone screens, without changing the content.
You'll get: A responsive team section, checked on phones, tablets, and desktop.
Schedule: Done within a week of your approval.
Standard minutes, including testing: 90. From your included time: 25. Additional work: 65 minutes.
Additional price: $110. A fixed quote for the 65 minutes beyond your included time.
Plan time is counted in standard minutes. The additional price is a separate quote, not a per minute charge.

Automated checks are read only. A page opening doesn't prove booking, payment, or form delivery works unless it's listed as checked by hand. This report isn't a security, accessibility, or compliance certification.
